

GRIZZLY FORCE

March 30, 2020

The effects of the COVID-19 pandemic are being felt across every aspect of our society and are having a dramatic impact on the people and workers we rely on for our communities to function. This is causing great strain on all our critical systems and the livelihood of so many of our neighbors. While the Grizzly Force team is committed to doing everything in our power to keep our employees and our families safe, there's so much more help that is needed and can be given.

To help workers navigate these new challenges, we are utilizing our platform to connect recently unemployed service industry workers with the many factories and processing facilities in our production sector who need workers now more than ever. Our goal is to provide work for as many as we can while supporting the essential sectors of our system, which we all rely on to provide us our food and other basic essentials.

To ensure those most vulnerable in our communities are not forgotten, Grizzly Force has committed to supporting 'A Better Life Foundation' (ABLF), an important non-profit on the Downtown Eastside who prepare and deliver over 1,500 meals daily to those who need it most. This includes women, children, and those on assisted living. ABLF and their clients are a staple in our community in East Vancouver where the Grizzly Force head office is situated.

In order to help ABLF with the increase in demand during these unprecedented times, our team at Grizzly Force is pledging to donate \$0.50 from every hour of work booked through our platform to this cause. These funds will go directly to the front lines to help ABLF continue to provide this important service to so many people in our communities who need our help.

The Grizzly Force app is already helping many newly unemployed workers get immediate access to jobs, with wages being deposited to their bank within 24 hours to help with the financial strain people are experiencing. Our team is committed to continuing our efforts to do what we can in this time of crisis to help everyone in our communities.

Our mission at Grizzly Force is to empower working people, our support of ABLF is one small step we can take to do our part in getting all of us through this crisis.

For more information on what ABLF is about please visit www.abetterlifefoundation.ca and if your organization can help out in any way please reach out to them via their website or send me a message!

Sincerely,

Mike Tipper
